**We're STILL Cleaning out the 2007 merchandise.**

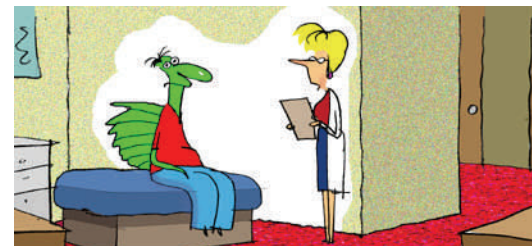

Included in the sale are masks, fins, snorkels, some regulators and wetsuits. Now is a GREAT TIME to pick up some new equipment at bargain prices. **Rental drysuits being sold off at GREAT Prices, limited sizes, HURRY!!!!**

We still have a few regulators from our rental stock for sale. These are great regulators at UNBELIEVABLE prices.

Again, we wish to remind our friends of the importance of servicing your equipment. Remember, to keep your free parts warranty intact, you MUST get your equipment serviced on an annual schedule. Remember that your BCD should be checked as well as your regulator set.

Waiting until equipment has failed to get it serviced can ruin an otherwise perfect dive trip in a dream location. Remember Southern Indiana Scuba will honor all warranty work as long as you have the proper documentation so that the manufacturers will honor the warranty.

**“Take only pictures,  
leave only bubbles”  
with SeaLife cameras  
now available at  
Southern Indiana Scuba**

**Prices starting at \$297 for 6mp**

The ultimate dive companion. Compact, rugged, easy to-use the ReefMaster Mini will accompany you on any dive or adventure you have in mind.

The Land & Sea exposure modes ensure great pictures on land or underwater. The Ext Flash mode allows for easy expansion with one or two SeaLife external flashes and results in bright, colorful underwater images. The Sea mode color booster corrects for the underwater blue color effect.

For breathtaking panoramic shots, add the optional wide angle lens which allows close up pictures to within 1ft/3cm and increases the shooting angle to 50 degrees so you can fit everything in the picture.

The rubber armored, shockproof body is depth tested to 130 ft/40m and drop tested to 6ft/2m. This is one truly ruggedized camera ready to withstand the most punishing environments.

Sooner or later, divers realize that adding an external flash produces the brightest, sharpest, most colorful underwater pictures. The DC800 Pro includes the camera and Digital Pro Flash in a soft travel case. Set the camera to Ext Flash Auto mode for automatic exposure control with the Digital Pro Flash, resulting in vibrant colors and reduced backscatter.

The Ext Flash Manual mode offers advanced UW photographers manual aperture and shutter speed controls. Quick shutter response for fast action photography. Long lasting lithium battery for all day of diving. Automatic focus from 2" to infinity. Large format continuous video recording with sound. Depth tested to 200ft. Fully rubber armored for shock protection.

The 1-year warranty covers the underwater camera and flash accessory.

**Dive The Dry Tortugas  
Aboard the *Ultimate Getaway*  
June 17-21, 2009  
~\$1,000 pp  
(add on Key Largo, FL for  
only ~\$500 more, June 13-16)**

Almost 70 miles west of Key West lies a cluster of seven coral reefs called The Dry Tortugas.

These reefs along with surrounding shoals and waters make up Dry Tortugas National Park. Known for its famous bird and marine life, and its legends of pirates and sunken gold. Dry Tortugas National Park includes the largest of the 19th century American coastal forts, Fort Jefferson.

First named The Turtles, Las Tortugas, by Spanish Explorer Ponce de Leon in 1513, these reefs soon read "Dry Tortugas" on mariners charts to show they had no fresh water.

During the Civil War the fort was a Union military prison for captured deserters. It also held 4 men convicted of complicity in President Abraham Lincoln's assassination in 1865. The Army abandoned Fort Jefferson in 1874, and in 1908 the area became a wildlife refuge to protect the sooty tern rookery from egg collectors.

President Franklin D. Roosevelt proclaimed Fort Jefferson National Monument in 1935. The Monument was re-designated on October 25, 1992 as Dry Tortugas National Park to protect both historical and natural features. Not least among the natural treasures are its namesakes, the endangered green sea turtle and the threatened loggerhead turtle.

**Plan NOW for  
JANUARY, 2009 to Cayman Brac  
Start the New Year with a warm splash!**

On January 10-17, 2009, join us on a great and beautiful Caribbean island vacation trip. Recommended by SIS friends we'll see dive sites to remember for years. Pristine reefs, fish, seahorses, dolphins, sponges and more.

For the ultimate Cayman Islands vacation, you could do no better than Brac Reef Beach Resort on Cayman Brac. It is the top of the line when it comes to Cayman Brac accommodations. The attractions here are simple: wind-rustled palm fronds at twilight, hammocks on an untouched beach, and incredible diving and snorkeling.

Brac Reef Beach Resort is a charming, family-owned getaway located on four and a half acres of milky white-sand beachfront. It is the only Cayman Islands resort to offer diving in the waters around both Cayman Brac and Little Cayman. While diving is a specialty, Brac Reef caters to divers and non-divers alike, welcoming families, small conferences, wedding and honeymoon guests and adaptive divers.

The resort offers visitors the only opportunities on the island to pamper themselves at Tropical Touch Day Spa, to log on through Cyber Beach internet access and to work out at Island Shapes Fitness Center. There are evening activities such as movies on the beach and karaoke. Snorkeling, kayaking, fishing, tennis, beach volleyball, family swims, and biking are also offered at Brac Reef Beach Resort.
